Doctor Video Call Appointment Platform

Connecting doctors and patients seamlessly for convenient, accessible healthcare.

Team Name:	Unique Creation
Name:	Prince Kumar Yadav

Problem Statement

1 **Limited Clobal Access**

Many individuals lack access to timely and affordable healthcare, particularly in remote and underserved areas.

2 **Prescription Challenges**

Patients face difficulty in finding reliable prescriptions for common illnesses, leading to treatment delays.

3 **In-Person Visit Dependency**

High dependency on in-person visits for consultations creates significant barriers for many.

4 **High Healthcare Costs**

The expense of medical services remains a significant barrier, preventing timely access to care.

Solution

Clobal Video Call Platform

Connects patients and doctors worldwide, eliminating geographical barriers.

AI Chatbot

Provides instant support, answers frequently asked questions, and assists with scheduling.

Medicine Delivery

Facilitates seamless prescription refills and delivery directly to patients' doorsteps, typically within 1 hour.

Key Features

Doctor Registration

Doctors can easily register, verify credentials, and manage their online profiles.

Patient Dashboard

Patients can view medical history, schedule appointments, and access secure medical records.

Secure Consultations

Encrypted video calls and HIPAA-compliant data ensure privacy and confidentiality.

Medicine Buy

Patients can easily purchase prescribed medications directly through the platform.

Workflow

1

Patient Journey

Patients create accounts, book appointments, and receive online consultations with doctors.

2

Doctor Journey

Doctors receive appointment requests, manage patient schedules, and conduct virtual consultations.

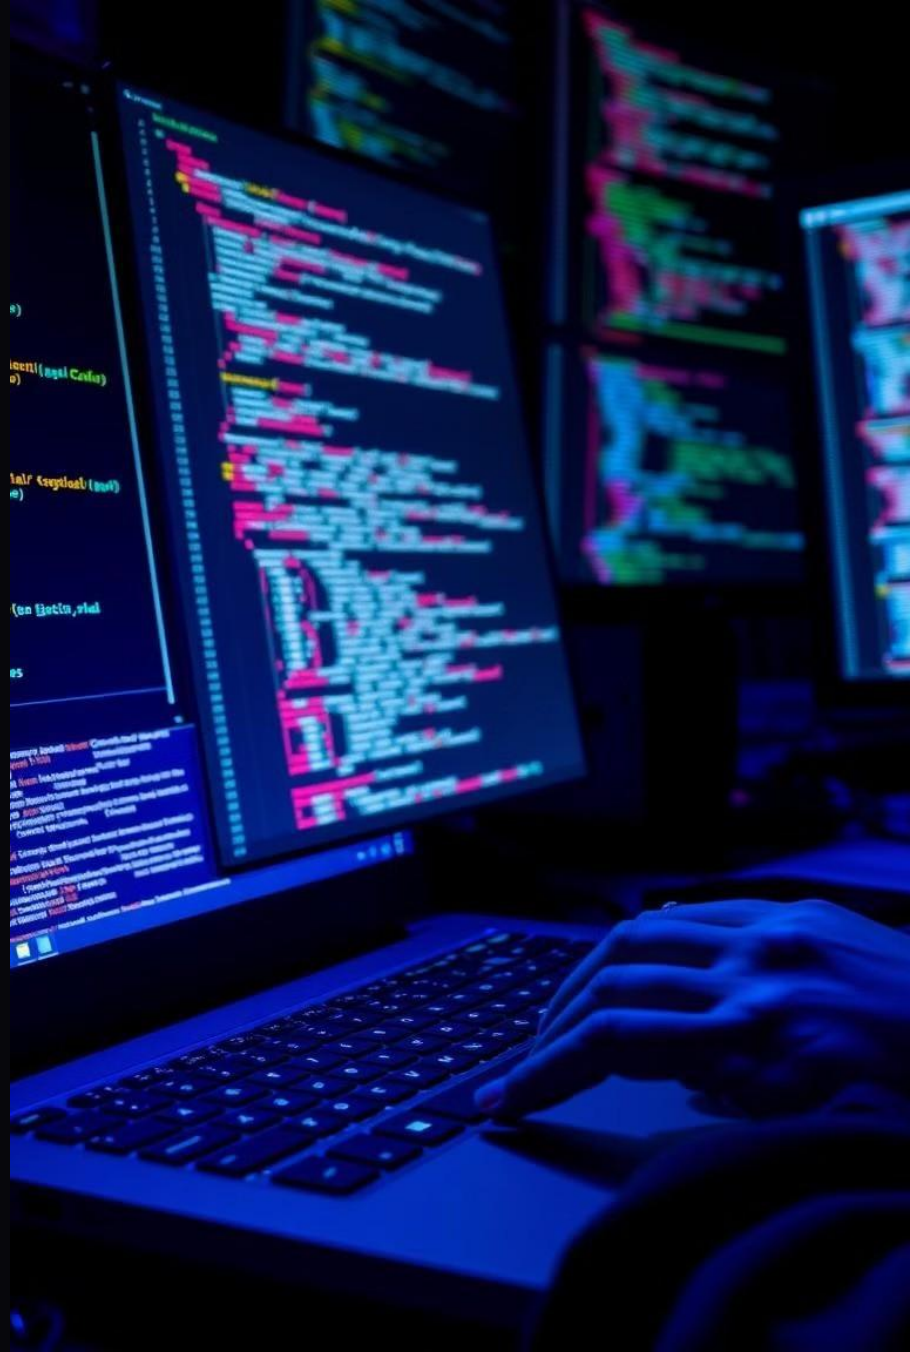

3

Prescription and Delivery

Doctors can prescribe medication, which is seamlessly processed and delivered to the patient.

Technology Stack

Frontend	HTML, CSS, JS, Bootstrap
Backend	PHP
Database	SQL/MySQL
Video Calling	Jit
AI Chatbot	Python, Machine Learning
Medicine Scan	AR/VR

Benefits

Time-Saving

Eliminates travel time, allowing patients and doctors to save valuable time.

Cost-Effective

Offers affordable healthcare access, reducing travel and consultation costs.

Accessibility

Connects patients in remote areas to specialists, providing access to quality care.

Improved Health Outcomes

Promotes early detection, consistent follow-ups, and better patient engagement.

Competitive Edge

1

Integrated AI Chatbot

Provides personalized support and assistance throughout the patient journey.

2

Streamlined Medicine Delivery

Facilitates seamless prescription refills and delivery, improving patient convenience.

3

Data-Driven Insights

Provides valuable data analytics for doctors and healthcare professionals.
